Dynamic Field Scoring

Workout-by-workout scoring based on the number of athletes who receive a valid score.

How it works

After each workout, JudgeRules counts the athletes with a valid score in that specific workout.

That number is rounded up to the next block of 5 and the corresponding scoring table is used.

Example: 63 valid scores use the 65-athlete table; 37 valid scores use the 40-athlete table.

After a cut, the system recalculates the table for the next workout using only the athletes who actually compete and receive a valid score.

Scoring table selection

Athletes with valid score	Table	Athletes with valid score	Table	Athletes with valid score	Table
1-5	5	26-30	30	51-55	55
6-10	10	31-35	35	56-60	60
11-15	15	36-40	40	61-65	65
16-20	20	41-45	45	66-70	70
21-25	25	46-50	50
